## STATEMENT

We of the University for Man, feel that the American Educational system in its present structure does not meet the needs of our society. The student contently exists within the ivory walls, shunning responsibility for himself and the necessity of making decisions which affect his life. The university does not provide meaningful training to help in discussing the crucial issues confronting mankind today. Instead of promoting life, it postpones it.

We believe that each individual has particular interests and possibilities and therefore needs to ask his own questions and direct his own education. Education involves the total environment, and should lead to personal growth and social action.

If education is to permit constructive creativity it must be free of grades and compelling requirements. The eventual aim of education is to allow us to think and discover for ourselves.

## COURSES

Did you ever consider that you may have something to share with others: knowledge, experiences, a craft? Do you have an idea that we haven't listed? Courses on any subject may be offered by any person at any time. The direction it takes and the success a course has is up to you and those participating in the class. The childish system of grades as rewards is removed and therefore, one must determine his own commitment. We believe that learning is the result of a true desire to learn. It is up to you to determine your educational interests.

## ADMINISTRATION

Policy making and decisions are open to all participants. UFM holds a general meeting each month to discuss major problems. The next general meeting will be February 19th, 8:00 p.m., at the U.F.M. lounge. Immediate questions and decisions will be handled by those frequenting the office during the week. Come and begin to determine the direction of the university that is for you.

## THE OFFICE

The office is located at 1801 Anderson Avenue on the second floor of the Baptist Center. Our phone is 532-6957.

Since fall UFM has expanded. We now have a library filling up with books on education and books suggested from people in UFM classes, a lounge open to people to escape to a quiet atmosphere, a draft help table and a job and housing list. Present projects include a coffee house, a summer training program in ed reform, a retreat with friends from the Institute for the Study of Non-Violence, a search into jobs relevant for today's graduates, a department of extramural studies, and a teacher-course-self-description.

**CIVIC THEATRE:** Interested in drama? Like to work in theater but can't find one? Manhattan Civic Theatre will put on "Visit to a Small Planet" and will be rehearsing during February. Casting has already been set but people are still needed to work back stage. A second production goes on in April under the direction of Mrs. Faw. Anyone wishing to take part in the second production in any way should sign up at UFM registration and they will be contacted by Mrs. Nelda Flinner, President of Manhattan Civic Theatre or Mrs. Faw.

**THE UNDERGROUND FILMS:** If sufficient support is shown the course will bring a number of the influential films of independent filmmakers of the 60's. Films by Stan Brakhage, Shirley Clarke, T. Jimura, the Kuchars, Willard Maas, Jonas Mekas, Jack Smith and Andy Warhol are possibilities. This course is restricted to adults and the open minded. In order to share the cost of the films we chose, a fee of \$7.50-\$10.00 will probably need to be charged. To begin the year we will meet Thursday evening after UFM registration at 7:30 in Denison Hall 117.

**KINETIC ARTS FESTIVAL MARCH 5, 6, 7:** The Magic Lantern Company (the Union film committee) is sponsoring a festival for local filmmakers on March 5, 6, 7. Public screening of all films will be held March 5. It will be free. For information, call Nancy Perry, 8-5800.

**CREATIVE PHOTOGRAPHY:** Open to those who are interested in improving their photographic techniques both behind the camera and in the darkroom. Some darkroom methods will be discussed as well as photography as a creative medium. Will be meeting twice a month, every other Thursday, 7:00 p.m., place to be announced. Leader: Howard Killough, 6-9039.

**EXPERIMENTAL MUSIC:** A continuation of last semester's group. Will be performing some of their own music, with some home-made instruments and electronic devices to produce a total environment sound piece. Look for them April 11th at Rosalea's Hotel in Harper and April 13th here on campus. Leader: Linda Roby, 6-9190.

**IL FLAUTO DOLCE: (PLAYING THE RECORDER.)** For those interested in the personal and group enjoyment of playing the recorder there is a weekly group of players who would welcome further participants and anyone willing to teach beginners. Anyone wishing to join will be contacted. We will notify you as to the location of the first meeting. The group meets Monday at 1:30 at participants' homes. Leaders: Mrs. Van Swaay, 9-5439 or Mrs. Hostetter, 6-6923.

**MODERN DANCE:** Experimentation and self-expression are the keynotes of modern dance. UFM has been very fortunate in having a professional teach this class. This group offers a beginners' modern dance course for both men and women. Meetings will be held on Mondays and Thursdays from 7:00 to 8:00 p.m., in the Baptist Center, 1801 Anderson Avenue. Leader: Edith Hinrichs, 9-5463.

**SWEET ADELINES:** Do you like to sing? Have you ever thought how much fun it would be to participate in some good old-fashioned songfests? To be a part of a harmonious blending of voices singing the "good old songs"? We meet Tuesdays at 8:00 p.m. at the Manhattan Bible College Music Hall. Coordinators: Thyra Davis, 9-5008 or Helen Whorton, 8-3425.

**THE VINE AND THE GRAPE:** Vines and grapes are rare sights in our fields and on our hills, but vineyards cover much of the world's farmland. Their yield sustains and entertains most of the human race today, and in the past our ancestors seldom neglected the grape's abundant gifts at the table. If you are curious about the cultivation and use of the grape in the past and present, please sign up. To join one must be 21. Limit 21 with small expense fee. First meeting: 7:30 p.m. Monday, Union room 203.

**EXISTENTIALISM AND EDUCATION, PSYCHOANALYSIS, LITERATURE, ART, AND THEOLOGY . . . BLAH, BLAH, BLAH:** We will investigate, on our own and in a group, how "existential philosophy" has and might effect each one of our own fields of interest. For example, we might discuss the concepts of chaos, choice and commitment as they occur in the learning process. The structure of our group meetings will be kept viable so that we might meet the unique needs of each person. We will try different techniques to promote individual creativity, intellectual stimulation and sharing of ideas. First meeting: 8:00 p.m., Monday, 1011 Laramie. Leader: David Hursh, 9-8304.

**CELEBRATIONS:** "Life I love you, all is groovy. . . . Life can be beautiful, let's celebrate it. Join us! We will gather in the UCCF Lounge Thursday at 7:00 p.m. Leaders: Michelle Williams, Lorraine Nesmith and Jim D.

**HIKING AND CAMPING—THE THOREAU BIT:** Open to all people who already have or wish to become acquainted with the fun of living in the great outdoors. Camping trips will be included. A great deal of emphasis will be placed on FUN. Exact time, date and place will be announced after registration. Leader: Rick Merle, 9-8211.

**BEGINNING TO FREE YOU:** The goals of these workshops will be to enable participants to learn to achieve better contact with their own feelings, ideas, hopes, etc., to become more aware of their own communication style and to better understand others. Learning will be through participation in group process. Each workshop will be a one-time thing lasting from 4 to 24 hours, depending on the needs and desires of the participants. Workshop expenses require a fee of \$15 per participant. Leaders will be chosen at a later date according to the need of the group. Sign up for the date most convenient to you. You will be contacted for a planning meeting about two weeks before the workshop. Planner: Shel Edelman, 9-2624.

**MARRIAGE AND FAMILY—INTERACTION (FOR MARRIED STUDENT COUPLES):** Five married student couples will be involved in a group process of exploring the emotional interaction of their marriage for the purpose of marital growth and fulfillment. Focus will be given to handling marital conflict; understanding yourself and how you relate to other family members; husband and wife expectations; working wives and mothers; academic, financial and sexual adjustments. First meeting: 7:00 p.m. Monday, 1021 Denison Center. Leaders: Mr. and Mrs. Don Fallon, 9-5582.

**WHO AM I? WHO AM I?:** There is a lack of places for Manhattan junior and high school students to get together to say what they are thinking, to talk about problems and bring out their honest opinions. We are offering 1011 Laramie as a place to meet each Wednesday night at 8:00. Teenagers and parents are welcome. An immediate proposal might be to help current plans for a teenage coffee house get off the ground to insure a more permanent place to just relax. Leader: Joe Engelken, 9-8304.

**HINDUISM AND INDIAN TRADITION:** Topics broadly will be ancient India, India in legend, origins of Indian tradition, Hinduism and other systems of philosophy and religion, India and the West, conflict adaptation and synthesis of culture in India and Hinduism today. First meeting: 7:00 p.m., Monday, Wesley Foundation. Leader: Dr. Samuel Mathai.

**FLYING SEMINARS:** Groups interested in flying as a hobby, sport, business or just interested. Individual interest will be an utmost consideration. There will be a group working on different aspects of aviation in general, with some emphasis on the FAA private written exam, and also an advanced group geared to those desirous of either the commercial and instrument ratings, or just some refreshment. If you have never been up and want to, that will also be arranged. All study and no play just doesn't cut it. First meeting: 7:00 p.m., Tuesday, UCCF Center. Leader: Terry Privette, 776-7319.

**ANTI-FLAB:** This class will begin with eight sessions of lectures on why you gain weight and how to lose pounds. The lectures will be oriented toward physiology. However lectures are only a part of ending FLAB. Running simultaneously with the lectures will be techniques of exercises. Special attention will be given to trying new exercises oriented especially for you. We will meet Tuesday nights at 7:30 p.m. in Putnam Hall basement. The other six days are up to you to keep it off. Leaders: Janet Sprang and Jane Griffith.

**COFFEEHOUSE PIT STOP:** Guitar players can get many insights by watching others play their guitars. By getting together occasionally, a group can become exposed to what each individual knows. This type of situation can allow advanced guitarists and beginners to get something to stimulate their interests in country, folk and folk rock music. First meeting: 8:30 p.m., Monday, March 2, Van Zile Hall. Leader: Paul Katz, 6-5129.

**CREATIVITY AND KINDERGARTEN:** Parents, do you value free integrated, self-directed learning experiences for your children? If so, would you like to see a kindergarten similar to the above for four and five year olds to come into being next fall. Sign up if: 1) you would like to discuss this project with other parents, 2) you are interested in getting involved in bringing this project about either by assisting on classes, making class materials or whatever it takes to provide a creative year for children. Sign up at UFM registration and we will then contact you for a first meeting. Leaders: Carolyn Coates, Nancy Bartel, Armeda Fretwell, Sue Maes.

**ISSUES IN HIGHER EDUCATION—IN SCULPTURE:** My hobby is wood sculpture. My job deals with higher education. I would like to lead a group combining both. Limited to six students, this course will be centered on discussion of the issues of higher education followed by creating in sculpture the feeling about or representation of these issues in wood, with a personal description to interpret the issue he has chosen and the work he has done. The only fee will be the cost of the materials. First meeting: 7:30 p.m., Thursday, 3140 Bermuda Lane, Leader: Chester E. Peters.

**THE ROLE OF THE STUDENT IN EDUCATION REFORM:** Are you tired of being trained instead of being educated? The demonstrations, sit-ins, and strikes are not doing the job. We want the university to produce individuals rather than computerized robots. Since we are the ones directly affected, we are the logical ones to make the necessary changes. What we have been working on this semester is: 1) majors as teachers; 2) teacher evaluation; 3) pass-fail expansion. First meeting: 4:00 p.m., Monday, UFM Lounge, 1801 Anderson. Leaders: Steve Fretwell and Randy Loucks, 6-5582.

**KSU—1980:** For those deeply interested in the institution of higher education—its philosophy, purpose, structure, and future—and for those who will be willing to read in depth serious essays on the subject contained in the book, "Campus 1980—The Shape of the Future in American Education," edited by Alvin C. Euruch. Anticipate dealing with specific issues as may be applicable to K-State with guest speakers on each issue. First meeting: 7:30 p.m., Tuesday, UCCF Center. Leaders: Don Hoyt and Joe Hafsten.

**NEW DECK:** With the upcoming state elections in November it is important that those who believe in the effectiveness of "political" action within the present structure work toward those goals they feel to be important. The New Deck will be working toward lowering the voting age, peace in Vietnam, minority rights and equality, and changing the make-up of the Board
