615 FAIRCHILD TERRACE

# UFM HAS A NEW HOME

This summer UFM moved from the Baptist Campus Center to a large white house just up the street at 615 Fairchild Terrace. This isn't the same as Fairchild Street, but it is nearby.

At last we have a home which comes complete with a kitchen for cooking classes, arts and crafts space for candlemaking, tie-dyeing, etc., a library which contains the latest in educational periodicals and books, a new political science collection donated by Lou Douglas, sections on women, ecology, Blacks, science fiction, crafts and skills... and two dogs in the yard. Come by and visit us, but ride a bike or walk if you can—we have a terrible parking problem.

### PEOPLE'S RESOURCE DIRECTORY

Here's something to watch forthcoming this year. A directory of people from the community and the campus who are willing to share and teach others skills, hobbies, and side interests that they might have. The directory, a joint effort of the University for Man, University Learning Network, and the Union Program Council will have topics such as "photography", "Freud", "Gardening", etc. and under each of these topics will be the names of people who have expressed interest in it. This will be a way for you to find others with similar interests or someone who can teach you what you've been wanting to learn. If you'd like to help us put this project together or be the first to list what your skills are, stop by UFM's registration and let us know. The directory would enable you to meet someone (who may know more or less than you about this particular topic) who is interested in common exploration.

### "TEACHING AS A SUBVERSIVE ACTIVITY"

Discussion of Postman and Weingartner's book by the same name. Anyone (hopefully high school and college students, teachers, professors, administrators, parents, and other human beings)—anyone who is interested in turning our schools into educational institutions, learning environments, etc., and who would like to kick around some practical ideas for educational reform, is welcome. First meeting: Monday, 7:30 pm. at UMHE Center, 1021 Denison. Co-ordinator: Warren Rempel, 539-4281.

### ISSUES IN HIGHER EDUCATION—IN SCULPTURE

My hobby is wood sculpture. My job deals with higher education. I would like to lead a group combining both. Limited to six students, this course will be centered on discussion of the issues of high education followed by creating in sculpture the feeling about or representation of these issues in wood, with a personal description to interpret the issue he has chosen and the work he has done. The only fee will be the cost of the materials. Co-ordinator: Chester Peters, 532-6944. First meeting: Wednesday, 7:30 p.m. Contact co-ordinator.

### UFM'S EDUCATION FILM SERIES

"If the Mind Is Free"—October 19, 2:00 and 7:00 pm. in the Little Theatre, Union.

A film nominated for a Chicago Emmy about a school with an inter-ethnic mix (Black, Chicano, Italian, Polish, Chinese, and Irish) stressing effective education and students making their own decisions about their learning with the extensive use of contemporary media as a learning environment.

"Play Mountain Place"—November 2, 2:00 and 7:00 pm. in the Little Theatre, Union.

A 1971 film release by Trevor Black. 21 years ago Play Mountain Place was created as an alternative to public education. The film documents the feelings, relationships, and activities of children growing and learning without grades or competition.

"New School, University of North Dakota"—date not set

This film looks into the new teacher education program that is having a significant impact upon public education in North Dakota. Teachers are going back into their old classrooms and changing them into open, free environments.

"Children as People"—date not set

A film about Fayerweather Street School of Cambridge, Massachusetts. John Holt recommends it as the best substitute he's seen for those unable to visit children in free schools.

All films are free. Sign up at registration to receive a notice on those films without dates.

"There is wonder in doing anything—fixing a car, singing, reading, thinking, gardening. To sustain a sense of wonder is what education should be all about. That's what it really is all about."

### FREE SCHOOLS

This past summer the UFM staff and friends visited 25 free schools in the mid-West area. These schools, usually founded by parents, are set up for kids between the ages of 6-19. Some of the areas we would like to talk about are: accreditation hassles, means of funding, what happens when kids return to public schools or decide to go to college, etc. We could also get into: changing attitudes in education, the future of public education and the free schools impact on them, and anything else of interest. First meeting: Monday, 7:30 pm. at 615 Fairchild Terrace. Co-ordinators: the UFM staff, 532-5866.

THE VINE AND THE GRAPE (winetasting)

Vines and grapes are rare sights in our fields and on our hills, but vineyards cover much of the world's farmland. Their yield sustains and entertains most of the human race today, and in the past our ancestors seldom neglected the grape's abundant gifts at the table. If you are curious about the cultivation and use of the grape in the past and present, please sign up. To join one must be 21. Limit 20. \$10.00 charge for wine. First meeting: Monday, 8:00 pm. at 1110 Clafflin, Apt. 103. Co-ordinator: James C. Mitchel, 539-7928.

CLASSES BEGIN SEPT 23-9

ART AND TOMORROW

Should tomorrow inadvertently arrive, what roles will the creative person play? What will "art" and "the artist" be? What will be their functions, if any? A wide-open forum for all—professionals, amateurs, young, old, patrons, critics, ignoramii. How about some science and technology people, some computer and A.I. types? No pretentious buffing about "culture" allowed. We seek interesting exchanges on the subject of the work of skilled imagination in the future. First meeting: Thurs. at 7:30 at 1730 Houston Street. Co-ordinator: William Burke, 778-5278.

FREE FORM TELEVISION SHOW

Anyone with ideas, energy or interest in doing presentations on the local television station call 776-9079 and ask for Rick or Paul.

SWEET ADELINES

Do you like to sing? Have you ever thought how much fun it would be to participate in some good old-fashioned songfests? To be part of a harmonious blending of voices singing the "good old songs"? In addition we will be planning a show and open house for the future. First meeting: Tues. 7:30 p.m. in the basement of the First Methodist Church, 6th and Poyntz. Co-ordinator: Carol Chandler, 539-9571.

INTERNATIONAL FOLK DANCING

This group will be doing line dances, circle dances, and couple dances of various countries. It is hoped that the group will attract the interest of those with little or no background in dancing. Also, the group seeks the participation of experienced dancers, especially those who could teach some dances. If you are interested in music or dancing, you are invited to attend. First meeting Wed. 7:30 pm., International Center, 1431 Anderson Ave. Leader: Prof. Ed Marsden, 9-9207.

ALUMINUM RECYCLING

The women of Seven Dolers Church are collecting aluminum for recycling as an environmental improvement measure, and as a means of raising money for our charity programs. Save your aluminum foil, pans and cans and contribute them to us. All Coor's beer cans and some other beer and soft drink cans are aluminum. Cans with side seams are not aluminum. Please flatten the cans. Bring cans or aluminum to 716 Colorado or call 776-7501 for pick-up. Co-ordinator: Ms. Mary Winden, 776-7501. If no one is there leave them by the door.

CITIZENS FOR A BETTER ENVIRONMENT

This environmental group will begin the fall by concentrating on two projects: 1) the solid waste problem—the solutions we see are either banning non-returnable bottles from the town or working for a recycling center for the town, and 2) setting up an environmental resource center for the town. This would be a place with films, tapes, books, speakers, etc., available to the public. If you are interested in working on these proposals or if you have additional ideas, please join with us. First meeting: Tuesday, 7:30 pm. at 2704 Hobbs Drive. Co-ordinators: Bill Howard, 532-6648. and Ken Derickson.

LIFE PLANNING WORKSHOP

The life planning workshop is designed to involve the individual in the process of influencing his own future. The majority of people don't think of themselves as actually creating their own future, but rather, just let it happen to them. In the life planning workshop the individual is encouraged to reach the realization that he is the one responsible for his own life, and consequently is capable of creating the future he wants for himself. The workshop involves a number of structured exercises lasting 7 to 8 hours. Contact the Counseling Center, Center for Student Development in Holtz Hall. Phone 532-6132.

SOCIOLOGY OF WOMEN

The position of women in the United States and cross-culturally is examined in theoretical perspective. Biological differences between the sexes are examined in the light of differential socialization. Social structural supports of the current are examined, emphasizing law, education, employment, religion, and literature and mass media. Potentials for change and the women's liberation movement are analyzed. First meeting: Thursday, 4:00-6:00 pm. in the State Room of the K-State Union. Co-ordinator: Neal Flora, 532-5723 or 539-5800.

SOCIOLOGY FILM SERIES

Sept. 28—Nothing But A Man  
Oct. 26—Films on Solidarity Movements  
Nov. 16—The Streets Belong to the People

All films will be in Williams Auditorium, Umberger Hall at 8:00. Price is \$1.75 for the series or \$.75 at the door. Receive tickets by mail from the Dept. of Sociology, 255 Waters Hall. Co-ordinator: Jan Flora, 532-5723 or 539-5800.

ASTROLOGY

Perhaps you haven't decided whether astrology is a science, a pseudo-science, or an interesting parlor game. In any case, it's very much "in" these days and you may want to learn how it works. The course will be designed for those with no previous knowledge of astrology and will be divided into two parts. Part I is for beginners. We will cover the mechanics of setting up a birth chart. Leader: Doris Grosh, 539-7864. We will then go on to the really important stuff: Part II—the interpretation (delineation) of the birth chart. Leader: John Ron. There may be a cost of about \$1.25 to cover some xerox expenses and to establish a group library of needed reference books. First meeting: Monday, 8:00 in Cardwell Hall, room 143.

EUROPEAN TRIPS

You are thinking about traveling in Europe? Or wondering about the hows and howmuchs? This is for anyone interested in learning and sharing information about a trip! So we would like to have people who have been on a European trip and people who are thinking of going or anyone who is interested in coming into the group. First meeting: Tues. 7:00 p.m. in room 252 Goodnow Hall. Co-ordinators: Cheryl Hetherington and Colleen Koudele.

EDGAR CAYCE DISCUSSION GROUP

What did E.C., the famous clairvoyant, have to say about dreams, reincarnation, Karma, Atlantis, man's purpose in life, etc. We'll learn together and have some lively discussions based on his readings. First meeting: Wednesday, 8:00 pm. at 615 Fairchild Terrace. Co-ordinator: Jean Peavy, 539-3815.

INTERVIEW—ITIS?

Learn how to interview for a job, how to create a job for yourself, and where to look for help in finding that career you want. We'll focus on the questions you have—with discussion groups and talks with resource persons. There will be three or four sessions—more if you want. First meeting: Monday, 7:00 pm. in the piano room of Van Zile Hall. Co-ordinators: Cindy Simmons, 539-3737, and Marsha Korthanke, 776-6008.

## "STEADY" AND ENGAGED COUPLES

Six couples will explore the emotional interaction of their relationship for the purpose of their own growth and enrichment and preparation for marriage. The concepts of "I'm OK-You're OK" transactional analysis will be used in understanding parent-child-adult responses. Questions of intimacy, handling anger and love feelings, sexual attitudes, psychological differences between the sexes, male-female roles will be considered. The group will meet informally for a weekly sack lunch-eon. First meeting: Wednesday, 12:30-1:30 at the UMHE Center, 1021 Denison. Co-ordinator: Don Fallon, 539-4281.

## GAY CONSCIOUSNESS

Since last December a group of gay people have been meeting weekly. Each of us have come with different needs and expectations. As a result we have done a variety of different things together. Also, we've spent a lot of time just talking and sharing experiences. The result has been the growth of a certain level of Gay Consciousness. Gay Consciousness is the growing process of realizing that as gay people we are not alone (there are and always have been gay people everywhere, although some of us are just becoming aware of this fact.) In addition, we need to learn to support and accept each other regardless of our various differences. Consequently, we are going to continue meeting this fall and we hope that more gay people in the K-State and Manhattan community will come out and join us. If you are interested in meeting with us this fall or if you just want information, call 532-5866 or write P.O. Box 54, Manhattan, and we'll contact you.

## "I'M O.K.—YOU'RE O.K."

A new breakthrough in the understanding of human relations, a fresh approach to the problems that every human being faces every day in his relations with himself and others. Transactional Analysis is a way of perceiving oneself, one's relations with others, one's not-OK feelings about himself and how to deal with these. Confronts the individual with the fact that he is responsible for what happens in the present and in the future, no matter what has happened in the past. Understanding of the "Parent", "Adult", and "Child" within each of us, constitutes the basis of new relationships and new freedoms from past perceptions about ourselves. First meeting: Tuesday, 7:30 pm. at UMHE Center, 1021 Denison. Co-ordinator: Warren Rempel.

The group will use concepts of "I'm Ok-You're OK" transactional analysis in understanding parent-child-adult responses in each marriage. Ways of expressing intimacy in marriage will also be explored. First meeting: Monday, 7:00 pm. at the UMHE Center, 1021 Denison. Co-ordinators: Mr. and Ms. Don Fallon, 539-5582

# A MORE NATURAL ORDER

We have found one concept impossible to communicate to the reader through graphics — that being the "oneness" of all that exists. Just as we segmented the elements of nature in the presentation, so too do we all attempt to break down and analyze things in order to try to "understand" them. We have been conditioned to see, hear, smell, touch, taste, experience the world around us in an analytic way. It has become important to think through or rationalize a situation instead of just realizing a feeling that may come clear thru it. We can look at a tree and see roots breaking out of the ground, a powerful trunk and long extended arms, with oxygen producing leaves on them, but we have forgotten how to see a tree as only a small part of an eternal circle. The Power of the World always works in this circle.

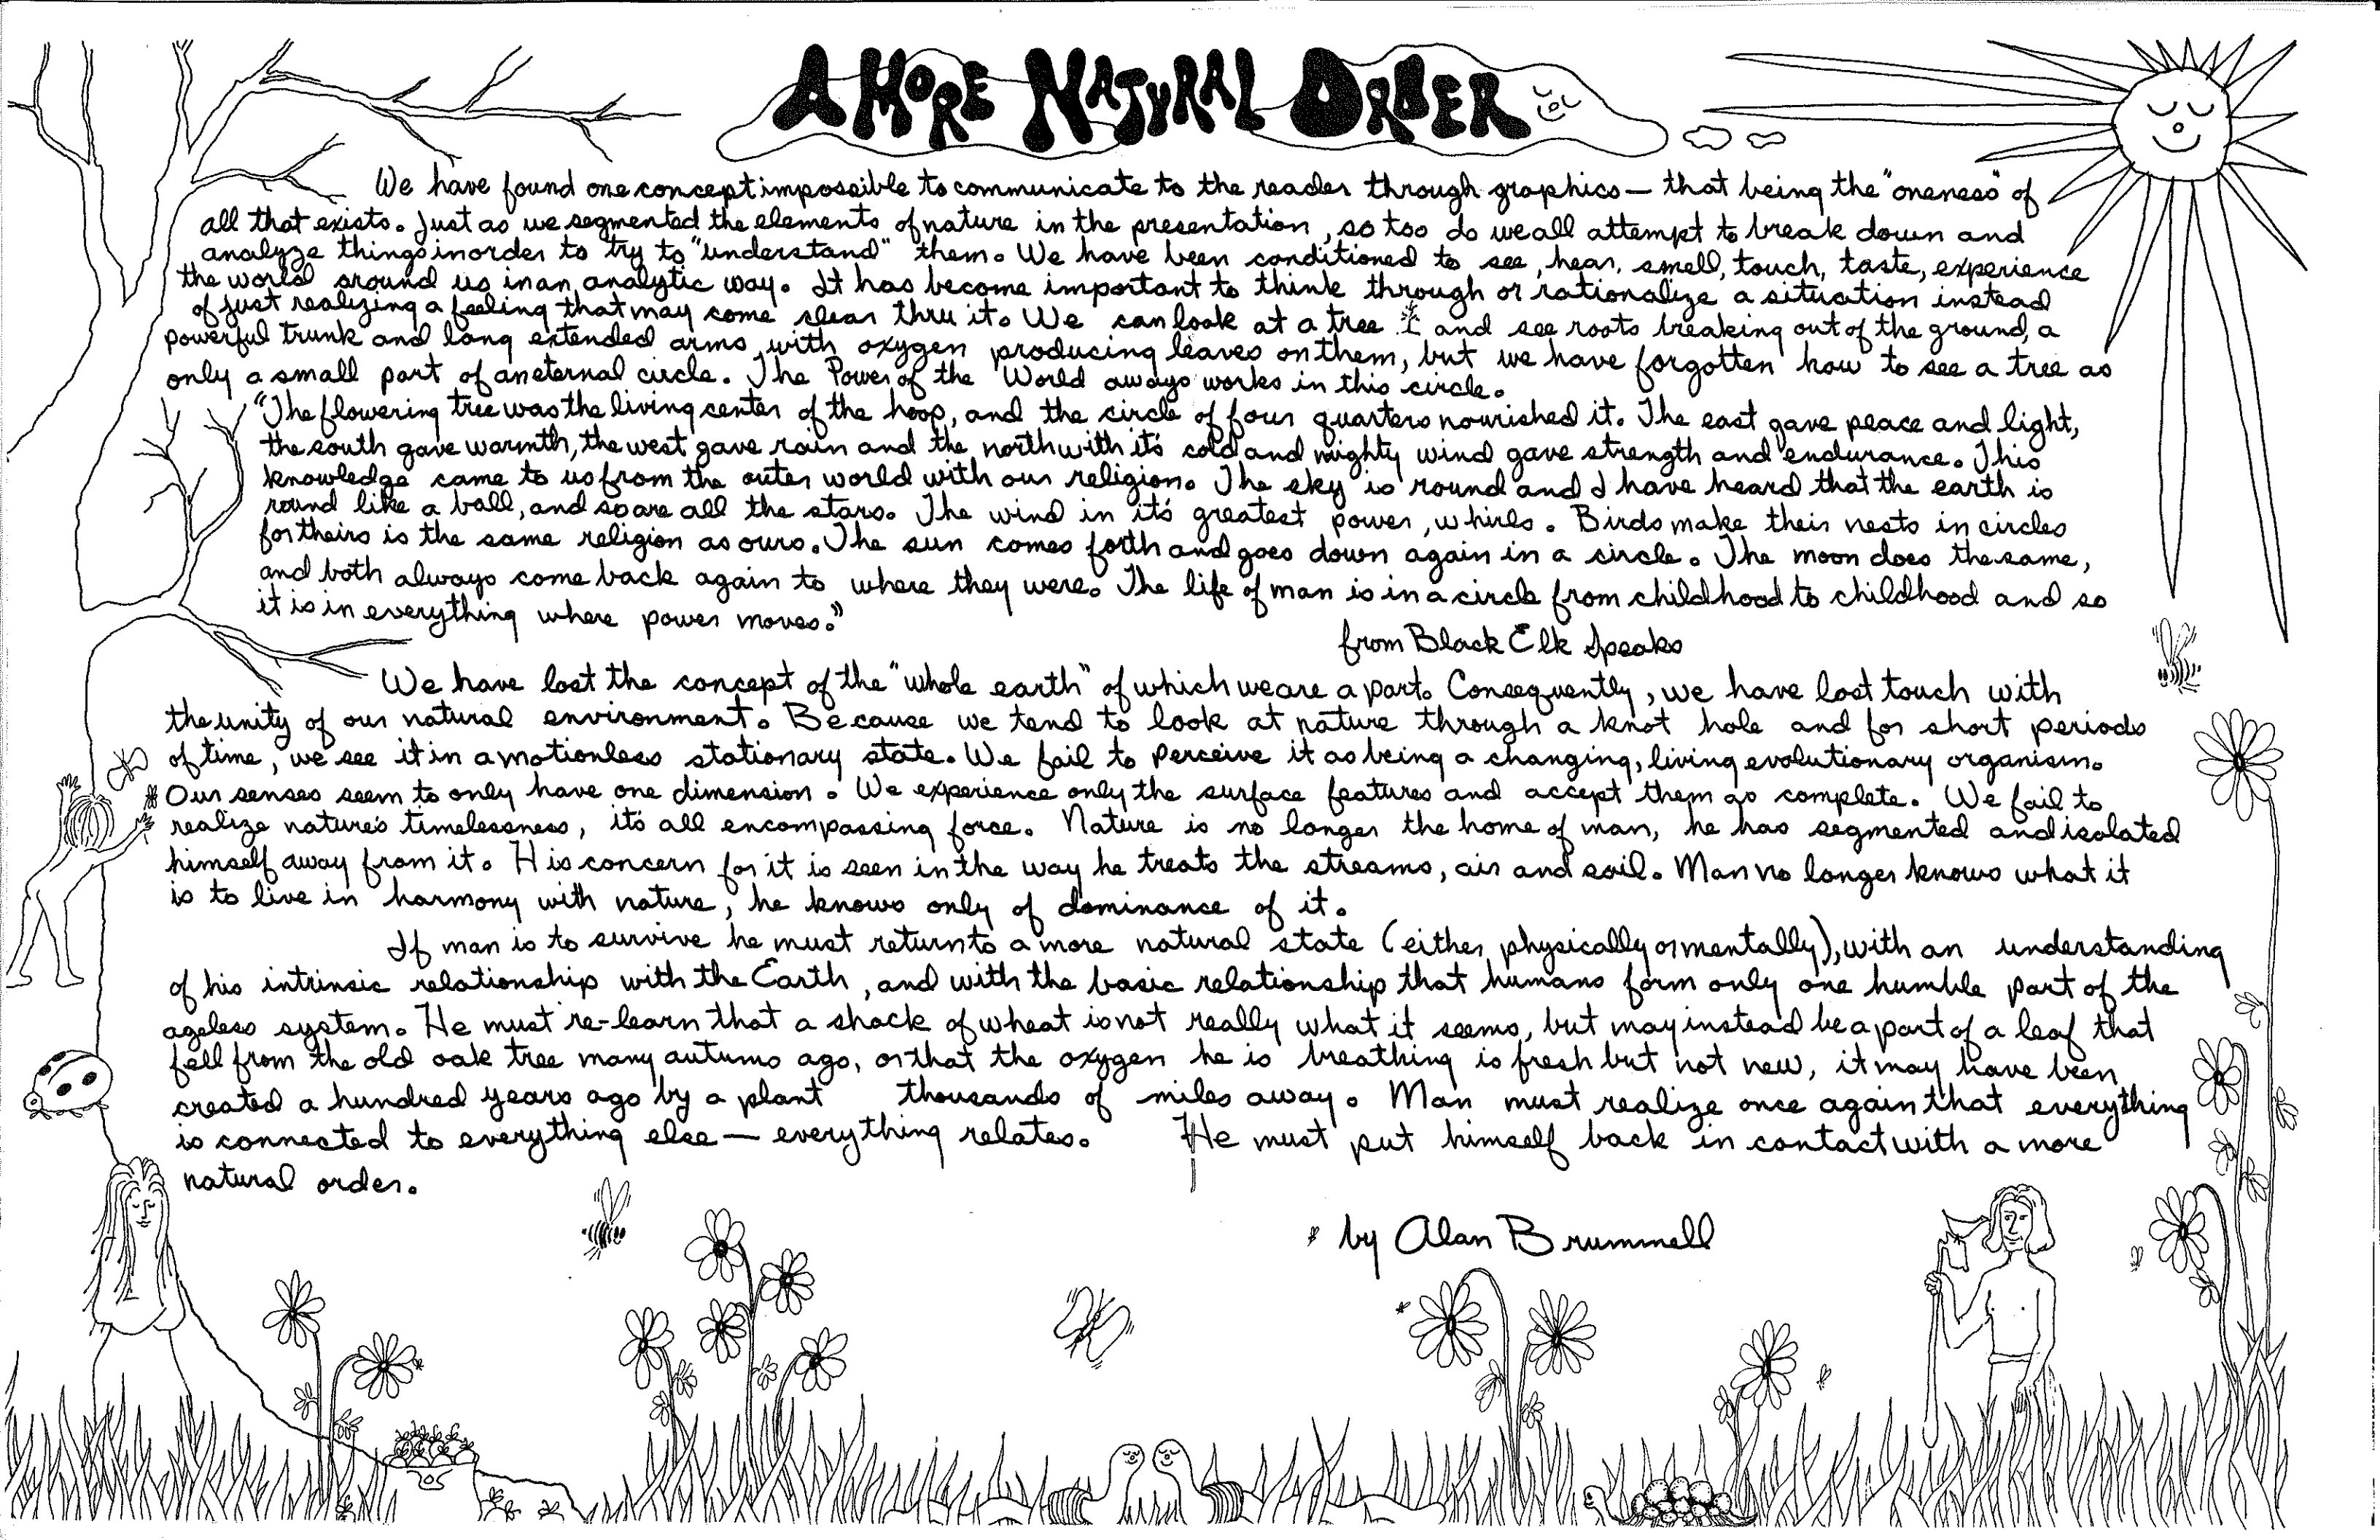

"The flowering tree was the living center of the hoop, and the circle of four quarters nourished it. The east gave peace and light, the south gave warmth, the west gave rain and the north with its cold and mighty wind gave strength and endurance. This knowledge came to us from the outer world with our religions. The sky is round and I have heard that the earth is round like a ball, and so are all the stars. The wind in its greatest power, whirls. Birds make their nests in circles for theirs is the same religion as ours. The sun comes forth and goes down again in a circle. The moon does the same, and both always come back again to where they were. The life of man is in a circle from childhood to childhood and so it is in everything where power moves."

from Black Elk Speaks

We have lost the concept of the "whole earth" of which we are a part. Consequently, we have lost touch with the unity of our natural environment. Because we tend to look at nature through a knot hole and for short periods of time, we see it in a motionless stationary state. We fail to perceive it as being a changing, living evolutionary organism. Our senses seem to only have one dimension. We experience only the surface features and accept them as complete. We fail to realize nature's timelessness, its all encompassing force. Nature is no longer the home of man, he has segmented and isolated himself away from it. His concern for it is seen in the way he treats the streams, air and soil. Man no longer knows what it is to live in harmony with nature, he knows only of dominance of it.

If man is to survive he must return to a more natural state (either physically or mentally), with an understanding of his intrinsic relationship with the Earth, and with the basic relationship that humans form only one humble part of the ageless system. He must re-learn that a stalk of wheat is not really what it seems, but may instead be a part of a leaf that fell from the old oak tree many autumns ago, or that the oxygen he is breathing is fresh but not new, it may have been created a hundred years ago by a plant thousands of miles away. Man must realize once again that everything is connected to everything else — everything relates. He must put himself back in contact with a more natural order.

First meeting: Thursday, 7:30 pm. at 615 Fairchild Terrace. Co-ordinator: Walter J. Butke.

#### EVERYTHING YOU ALWAYS WANTED TO KNOW ABOUT BUGS, BUT WERE AFRAID TO ASK

Why are insects attracted to lights? How did Lief Erickson orient at night to find his Freyja? Is socialism an outgrowth of bee communes? Do bugs scream when I squish them? What do insects find to talk about? Insects have feelings and problems like each of us. To meet these, they have developed behavior patterns that could help us understand our own innate ones. Being political animals they offer possible solutions to ecological and population problems. Their social organization could offer a glimpse of what human life might be in the year 2000. Through discussions and field trips we will attempt to clear up many misconceptions about one of nature's most maligned and misunderstood creatures—the insect (BUGS). First meeting: Tuesday, 7:30 pm. in the fireplace room of the UMHE Center, 1021 Denison. Co-ordinators: John Pozzi, 776-5179, and John Guerber, 539-7724.

How to create your own art object: first: list three things you like about yourself & three things you dislike about yourself. then while talking with someone casually mention your likes & dislikes. When doing this you will be creating new relationships & understandings. er so: art

#### THE BASIC AUTOMOBILE (or how to avoid the rip-off)

We have seen too many young damsels and gentlemen with little or no mechanical savvy receiving the sharp end of the stick from car repair services. Henceforth, we're going to start at the beginning (differentiating between headlights and parking lights, if need be) and pump as much understanding into those interested as we can. Since reputable people do exist, we will also try to give you some pointers as to how to pick a good mechanic and/or a good shop. Don't be embarrassed to come; the money you save could be your own. We stress this point especially for the women, as you don't have to be dumb about your transportation just because society told you to be so. Limit 20. First meeting: Wednesday, 7:30 pm. at 821 N. 11th, Apt. 2. Co-ordinators: John Hughes, Phill Fanning, and Jerry Eads.

#### BICYCLE TOURING

Now I ask you: what of the countryside can you see from the inside of your air-conditioned, eight-cylindered, delux Camaro (with seat belts)? Not much.

If you can get ahold of a bicycle by the first Sunday after registration, meet with us and we'll visit Manhattan and the surrounding area. First meeting: Sunday, 2:00 p.m. at Johnny Kaw's statue in the City Park. Co-ordinator: John Richly.

#### GENTLE ART OF SELF DEFENSE

Japanese marshal art of Hakko-Ryo Ju-Jitsu stressing only defensive tactics as taught by a black belt instructor. Skills require little or no strength, so are highly appropriate for either sex. No competition is involved in training. This art is only for the non-violence prone who desire to learn to defend themselves from attack and are willing to earn rank in the art as a hobby. First meeting: Wednesday, 7:00 pm. in Ahearn Field House, 3rd floor, west end, judo room. Co-ordinator: Jay Dickinson, 532-5550.

#### TOBACCO—THE ART OF BLENDING AND PIPE SMOKING

Since the day in 1613 when John Rolfe married Pocahontas, countless billions of pounds of tobacco have been sold and consumed by millions of people who haven't the slightest or perhaps only the slightest, idea of what they are consuming. Join with us and learn the art of blending tobacco, using such leaves as Turkish, Macedonian, Latakia, Perique, Virginia's and many more. Answer such questions as what blend to use? Will it light easily? Can you keep it going? Learn about the care and feeding of your favorite pipe. Bring your briar, meerschaum, corn cob, cherry wood or what have you, and we will study this great art of pipe smoking together. First meeting: Tuesday (We'll meet the last Tuesday of every month), 7:30 pm. at the UMHE Center, 1021 Denison. Co-ordinator: Bill Ziegler, 776-6690.

"World Friendship", a group of international and American women, seeks to build friendships that span cultures and languages, acquaint new arrivals with the community and its facilities, and provide a unique social outlet that is not tied to departmental or ethnic considerations. Planned activities will be general programs, a picnic and some evening parties. There will be groups for sewing, cooking, handcraft, needlecraft (knitting and crocheting), bridge and any other group for which there is an interest. A nursery is provided for the children. Sign up at registration or contact Wy Johnson, 539-5723, Nancy Hodges, 539-2935, or Pat Campbell, 778-3797.

CO-OP BABYSITTING EXCHANGE

The Dames Club has organized a community babysitting service. It works on a point basis instead of a monetary basis. You babysit for other children and collect points for the time you've committed. Then when you need a babysitter, instead of money, you exchange the points you've earned for a babysitter. That's almost free babysitting! If you are interested in this program, call Karen Ramirez, 539-2905.

ADULT BASIC EDUCATION

Adult Basic Education needs volunteer tutors to teach in various fields such as math, social sciences, English, grammar and literature. Tutors are also needed to teach conversational English to wives of foreign students. Aides should be able to help on a regular basis. Sign up at registration and you will be contacted. For more information call Mary Border, 539-5539.

FEDERATION FOR HANDICAPPED CHILDREN

This group has new facilities to work with mentally or physically handicapped people who are nursery, teen and adult age. Help is especially needed for the nursery school, 9-11:15 am. any morning, the Sunday school classes and the swimming program which will soon be started. The organized Boy and Girl Scout Troops could use volunteers, too. Both men and women are needed in this work. Counseling, listening, and helping with problems play a large part in this service. Sign up at registration. Also, please contact Ms. Dalrymple, 539-5504.

The police department of Manhattan, Kansas would like to involve students and people living in this community in their police-community relations program. This program involves informal "rap sessions". At each session, four Manhattan police officers will meet with concerned people to talk over problems. The sessions are intended to bridge the gaps between police and the people, hopefully to make Manhattan a better community in which to live. Law and order is not enough. It must be law and order through justice. We encourage you to sign up. The number of people signing up will determine when and where the first meeting is. Co-ordinator: Sgt. Al (Big Al) Meyers, 539-1122.

THE DRAFT

How do you stand with the draft? Can you get a deferment? How long can you keep the one you've got? What physical disabilities make you exempt from the draft? What is a conscientious objector? A MINI-COLLEGE ON JESUS

This is a series of three seminars which are intended to open and reopen the questions about Jesus:

- Who was/is he?
- How is Jesus related to the Christian Church?
- Son of God?
- Son of Man?
- Super Star?

The seminars will be conducted at the UMHE Center, 1021 Denison, on November 7, 14, and 21 from 3-8 pm. Co-ordinators: United Ministries in Higher Education and Lutheran Campus Ministry, 539-4281.

SIN, SALVATION, GOD THE FATHER and all that jazz

You no doubt remember that sunday school teacher with her pat answers all wrapped up in gushy, warped words like sin, sacred, grace, trinity, Father, Son and Holy Ghost. You didn't have a ghost of a chance either. Christianity's got to mean more than that! And those old words have got to mean more than those pat answers given in sunday school and catechism class. So here it is: an interpretation of those old words into new ideas—and contemporary human experience with a further religious meaning. This open group will attempt to drag out of that old stuffy Christianity new meaning that applies to our everyday lives. If you want some new approaches to religion and some new friends, then come on along. First meeting: Monday, 8:00 pm. at the Catholic Student Center, 711 Denison. Co-ordinator: Fr. John Carlin, 539-7496.

SEEKERS AND SERVERS

We are going to form a group which will act as a kind of "spiritual laboratory" which can explore, experiment, share and build together a Consciousness that will lead Man into what is commonly called the Aquarian Age, the New Age, the Age of Light and Life, the Kingdom of Heaven on Earth. This is a workshop more than a discussion group, though our exploration and experimentation will no doubt lead us into much discussion. We intend to remain open to all teachers, philosophies, religions and revelations, but will not be limited by any one point of view—for we are striving to see, among other things, the Unity of all. First meeting: Sunday, 7:00 pm. at 615 Fairchild Terrace. Co-ordinator: Michael Brownlee.

YOGA

We will practice the postures and breathing of yoga. Also included will be discussions on natural diet and meditation. Limit 7. First meeting: Tuesday, 7:30 pm. in room 206C of the K-State Union. Co-ordinator: Sherri Springer, 776-4287.

Training and practice in the approach to self-realization through the highly developed system of asanas known as hatha yoga as it is taught today by Prof. T. Krishnamacharya of Madras and his pupils. The course proceeds through training in breath control, asanas and yogic meditation to integral development of the body and personality towards its highest potential. Those participating should wear light, loose clothing. Limit 12. First meeting: Thursday, 4:30 pm. at the Unitarian Church, 709 Bluemont. Co-ordinator: Dr. Albert Franklin, 532-6894 or 539-0495.

?? TSIRHC SUSEJ

Have you had it all backwards? Does He really solve problems? Can He be for real? Today? We will check it out. We will examine His own words and discuss what others have written about Him.

We will also rap about topics as time allows:

- christianity natural or supernatural
- authority tradition or scripture
- scripture end or means
- salvation merit or mercy
- morality outward or inward
- worship lips or heart

Even if this doesn't whet your proverbial palate, you might consider coming along for the coffee.

- tuesday a.m. 6:30-7:30 Bible Rap Session
  - tuesday p.m. 1:30-3 Friendship Bible Coffee
  - wednesday p.m. 7:30-9 Couples Confab

### COURSES

Did you ever consider that you may have something to share with others: yourself, knowledge, experiences, a craft? Do you have ideas that haven't been listed? Courses on anything may be offered by anyone at anytime. If you would like to lead a class, just call us. If you have any ideas for classes, we'll try to find leaders.

### UNIVERSITY POLICY

University for Man is put together to serve as an educational communication link for the Manhattan community. The UFM brochure of classes and interest groups expresses for people who live in this community their interests, ideas, and excitements. Holding yourself responsible for your own growth and education, you must make the decisions as to which classes are for you, which new areas you want to explore and which you wish to avoid. There is room for all ranges of beliefs and disbeliefs, likes and dislikes. For we are a free university open to you.
